RW033A it's a water motor cleaning head, with no lubricant and grease as the medium used for cleaning (water or solvent) is at the same time the lubricant of the head.

The main application are:

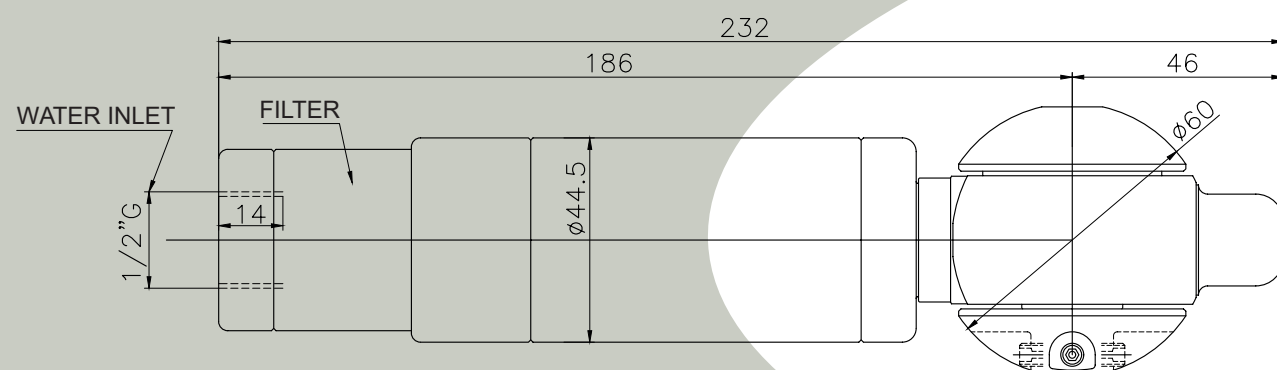

- Food/Pharma/Cosmetic and Chemical Industry
- suitable to be used in small vessels like IBC and tanks up to 3 m³

The design of the head is compact and for this reason the minimum opening diameter required is only 60 mm, equipped with a filter, 2 or 4 nozzles, the head grant a perfect cleaning at 360°.

TECHNICAL SPECIFICATION

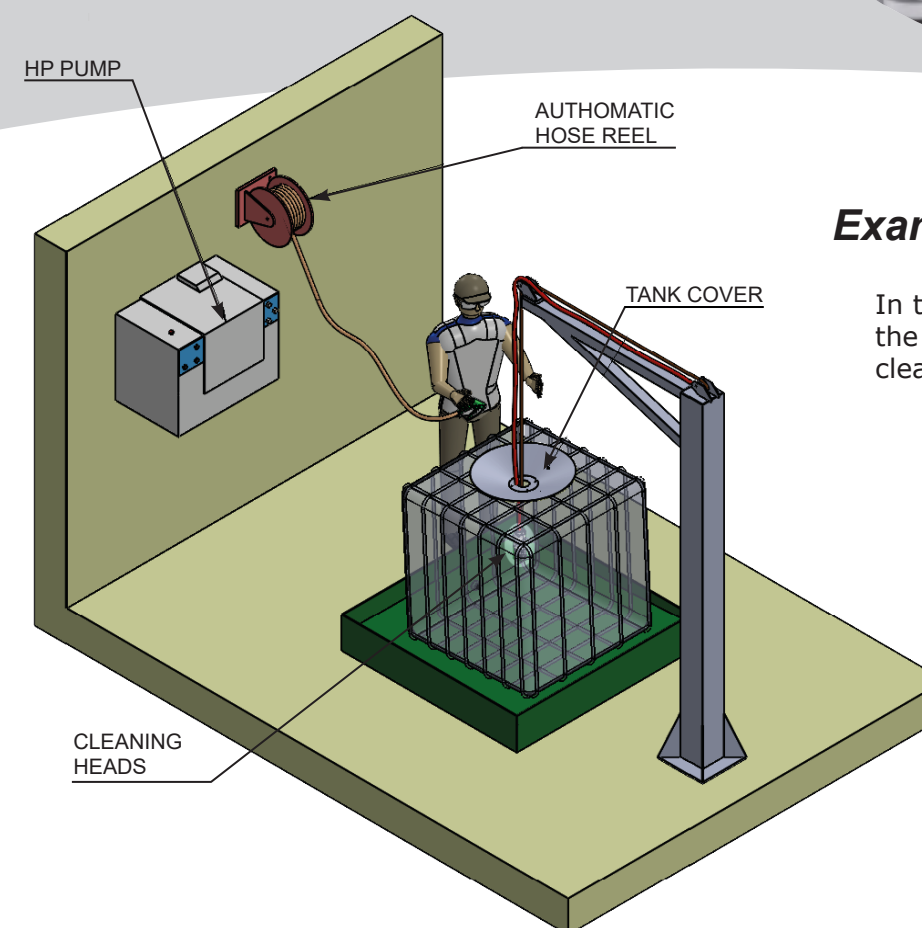

FLOW	8 - 30 l/min
PRESSURE	10 - 150 bar
MAX OPERATING TEMPERATURE	90 °C
FILTER	700 micron
NOZZLES	M5
MATERIAL	AISI 316 - Seals: NBR-EPDM-VITON
MIN.CENTER LINE THROUGH HOLE	Ø60 mm
ROTATION SPEED	15÷25 rpm
FULL CYCLE TIME	2,1 min at 20 rpm
FULL CYCLE	41 rpm
WEIGHT	1,8 Kg

Certificate

CE
Atex  II 1 GD

With the **CE** certificate is possible to provide on request also the **Atex Zone "0"** certificate and the **FDA** compliance certificate.

Example of use

In this example is possible to see the **RW033A** used for the IBC cleaning.
